

Renters Insurance

UT Dallas has identified two insurance companies for you to review/consider if you choose to purchase coverage for protection of your belongings. These companies have been vetted by the University, but they are recommendations only. You also have the option to use your own provider or other existing options, such as your parents' homeowner's plan.

Please note that while renters insurance is not required, you are strongly encouraged to purchase some kind of insurance plan to cover potential losses or liability for your belongings while living on campus.
